EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2027	B.Tech in CST	Institute of Engineering and Management, Kolkata	8.69/10 (upto 6 th sem)
2021	Senior School Certificate Examination	Kalyani Public School	74.6%
2019	Secondary School Examination	Central Model School, Barrackpore	83.6%

PROJECTS

PROJECT 1	Dec, 2025
HOG feature-based handwritten Digit Recognition Using CNN model: Built a deep learning –based digit recognition system for Indian regional scripts--- Bengali, Devanagari, Assamese--- using CNN and HOG, with extensive preprocessing and optimizer tuning, achieving 99%+ accuracy across the three authentic datasets.	
PROJECT 2	Jan, 2026
AI Interview Coach Python, Streamlit, Groq API, NLP - Built an AI-powered mock interview platform with dynamic question generation using Groq LLM, implemented semantic similarity scoring using sentence-transformers to evaluate answer quality with cosine similarity. - Developed resume-based personalized interviews by extracting skills and projects from PDF uploads using pdfplumber. - Integrated skill gap detection that tracks weak topics across sessions and adapts next interview accordingly. - Built full user authentication system with bcrypt password hashing and SQLite session history and deployed on Streamlit Cloud.	
PROJECT 3	Feb, 2026
Project: AI Code Review Agent Python, FastAPI, Groq API, GitHub API - Built a GitHub bot that automatically reviews Pull Requests using LLaMA 3.3 70B, detecting bugs, security vulnerabilities, and bad practices with severity ratings. - Designed a webhook pipeline using FastAPI that receives GitHub PR events, parses code diffs, and posts structured AI-generated review comments directly on the PR. - Integrated Groq API for free LLM inference and Cloudflare Tunnel for secure webhook delivery with HMAC signature verification.	
PROJECT 4	Oct, 2025
Web Development Projects HTML, CSS, JavaScript - Developed interactive browser-based games including Rock Paper Scissors using HTML, CSS, and JavaScript. - Built a responsive shopping website using HTML and CSS with a focus on layout structure and visual consistency.	

SKILLS AND EXPERTISE

- Programming Language: Java, C, Python
- Data Science & ML Tools: VS Code, Jupyter Notebook, MySql
- Webtools: HTML, CSS, JavaScript
- Database & Visualization: SQL
- Frameworks & Libraries: TensorFlow, Pandas, NumPy, Matplotlib/Seaborn
- Platform: Windows

COURSEWORK INFORMATION

- Advanced programming (OOP).
- Data Structure and Algorithms.
- Design & Analysis of Algorithm.
- Database and Management Systems.

INTERNSHIP

AI Intern | IBM SkillsBuild – Edunet Foundation
May 2026 | Artificial Intelligence

- Completed IBM SkillsBuild's 6-week intensive internship focused on Artificial Intelligence concepts and applications.
- Gained hands-on exposure of AI/ML concepts and built a real-world project, AI Interview Coach, using Python, Groq API, NLP, and Streamlit.

CERTIFICATIONS

- | | |
|--|-------------------------|
| IBM Cybersecurity Analyst course certification. | Coursera Jan 26, 2026 |
| Google foundation of Cybersecurity course certification. | Coursera Jan 19, 2026 |
| Applied Cryptography Specialization course certification. | Coursera Oct 31, 2025 |
| Data Science Foundations: Fundamentals | LinkedIn Apr 11, 2026 |
| Learning Data Analytics: Extending and Applying Core Knowledge | LinkedIn Apr 12, 2026 |
| Practice it: Java | LinkedIn Apr 12, 2026 |

AWARDS

- Awarded first position of achievement in poster making for creative presentation on Digital Footprints, highlighting awareness of online privacy and digital responsibility.
- Awarded first position for representing the college Design Society Club in a poster making competition on the theme of Renewable Energy, contributing original design work to promote sustainability and environmental awareness.
- Awarded certification of appreciation for lead coordinating the major college cultural events such as *Rabindra Sarene* and *Ecstasia*.

EXTRA CURRICULAR ACTIVITIES

- Led college events like *Ecstasia* and *Rabindra Sarene*. Coordinated planning and scheduling venue arrangements and resource allocation.
- Participated in college technical poster making competition.
- Member of college design society club and photography club.
